Stanthorne Hall, a spacious brick edifice, erected near to the site of the old hall, is the property of Lieut.-Col. F. C. In the 13th and 14th centuries the manor was vested in a family of the name of Bahers; Little Stanthorne, as it is called, being at the same time held by the Duttons: subsequently the Whalleys were seised of the manor, and it was afterwards, by purchase, the property of Sir John Bryne bart. of Timogue,

It is in the Altrincham division of the county of Chester, Macclesfield hundred, rural deanery of Stockport, archdeaconry of Macclesfield and diocese of Chester.

The municipal and parliamentary limits were formerly co-extensive, the latter comprising Edgeley, and Portwood in Brinnington township, part of Cheadle Bulkeley township, part of Cheadle Moseley township, Stockport township, part of Heaton Norris parish in Lancashire, but by the Stockport Extension (1901) Order the municipal borough was extended to include Reddish and parts of Hazel Grove-cum-Bramhall, Cheadle, Heaton Norris, Brinnington and Bredbury. By the Stockport (Extension) Order, 1913, and by the Local Government Board's Provisional Orders Confirmation (No. 13) Act, which came into operation November 9th, 1913, nearly the whole of Heaton Norris Urban District and civil parish was added to the borough. The places named, except Reddish and Heaton Norris, were constituted the civil parish of Stockport by an Order (confirmed by the Local Government Board on the 29th October, 1894) of a Joint Committee of the County Councils of Lancashire and Cheshire, and the Council of the County Borough of Stockport. Since the "Reform Act, 1832" (2 and 3 William IV. c. 45), the borough has sent two members to Parliament.

Under the "Local Government Act, 1888" (51 and 52 Vict. c. 41), Stockport has been declared, for certain purposes, a county borough.

Under the "Municipal Corporation Act, 1835" (5 and 6 William IV. c. 76), the borough was originally divided into six wards, but on June 23rd, 1894, it was rearranged into 14 wards. By Local Government Order, P. 11,711, confirmed by "Local Government Board Provisional Orders (No. 11) Act, 1901," which came into operation 9th November, 1901, the County Borough was extended to include the Urban District of Reddish, parts of the Urban District of Bredbury and Romiley, Cheadle and Gatley, Hazel Grove and Bramhall and Heaton Norris and part of the Rural District of Stockport, and the borough is now divided into 18 wards, the Corporation consisting of 18 aldermen and 54 councillors.

The borough has a commission of the peace and a police force.

The gas, electricity works and tramways are the property of the Corporation.

Water is supplied by the Corporation both to the borough and surrounding districts, covering an area of 80 square miles. The water works at Kinder were opened on the 11th July, 1912; the new reservoir has an area of 44 acres and a capacity of 515,000,000 gallons; the dam supporting this reservoir is the largest earth dam in the world; the scheme has cost over half a million of money.

The town stands on the river Mersey, here formed by the junction of the rivers Goyt and Tame, and is most irregularly built, being in some parts precipitous, with an ascent from the north, and around this acclivity on the south bank of the river the houses rise in successive tiers from the base to the summit. Stockport has communication with all parts by the London and North Western and North Staffordshire railways, with stations at Edgeley, Reddish, Davenport and Heaton Norris, and by the Cheshire Lines Committee's railways, which have a joint station at Tiviot Dale on the Lancashire side; another line, forming a junction with the preceding railway at Brinnington, passes through Reddish Vale and Gorton, and joins the main line of the Great Central railway at Ashbury junction; and in addition a branch line, about a mile in length, joining the Cheshire Lines Committee's system at Bredbury, affords direct communication from Stockport to London and the South of England.

The magnificent viaduct of the London and North Western railway, which literally passes over the town, has an extreme length of 1,780 feet, comprising 22 semi-circular arches, each 63 feet span, carrying four lines of rails, at a height from the bed of the river of 108 feet, and was erected at a cost of about £75,000. Electric tramways are also laid from the town to Manchester.

The Midland Railway Company, in May, 1900, opened a line from New Mills, in Derbyshire, to Cheadle Heath.

The river is crossed by a fine bridge of eleven arches, which also carries the Wellington road across the valley, nine of the arches being on the Cheshire and two on the Lancashire side; it was opened, with the road, in 1826, the whole being completed at an expense of £40,000.

STOCKPORT ETCHELLES, seg Gatley.

STOCKTON HEATH is a large parish and village one mile south from Warrington, created a civil parish from that of Appleton by Local Government Board Order No. 36.382, dated Oct. 1, 1897; it is in the Knutsford division of the county, parish of Great Budworth, hundred of Bucklow, petty sessional division of Daresbury, Run-corn union, county court district of Warrington, rural deanery of Frodsham, and archdeaconry and diocese of Chester. The Bridgewater canal undertaking of the Manchester Ship Canal Co. forms the southern boundary of the parish. The ecclesiastical parish was formed in 1838 from the parishes of Great Budworth and Run-corn, and includes part of Warrington (Lancs) County borough. The church of St. Thomas, erected in 1826 and rebuilt in 1868, at a cost of about £13,000, is a sandstone edifice consisting of chancel, nave of five bays, south aisle, south porch and an embattled tower containing a clock and one bell: in 1877 the interior was decorated, and a handsome reredos erected to the Rev. William Hayes, vicar to 1875: several of the windows are stained, and the church affords 500 sittings. The register dates from the year 1827. The

living is a vicarage, net yearly value £240, with 2 acres of glebe and residence, in the gift of Sir Gilbert Greenall bart. and held since 1905 by the Rev. James Collins M.A. of Merton College, Oxford. There are Wesleyan and Independent Methodist and Primitive Methodist chapels. A county police station with lock-up was erected here in 1864 and further enlarged in 1912. The manufacture of spades is carried on to a small extent. Piers Egerton-Warburton esq. of Arley Hall, is lord of the manor and chief landowner. The soil is clay; and the subsoil sand and rock. The area of the civil parish is 176 acres of land and 13 of water; rateable value, £17,204; the population in 1901 was 2,543 in the civil and 3,795 in the ecclesiastical parish, and in 1911, civil parish, 4,370, and ecclesiastical parish, 5,596.

Verger and Sexton, William L. Wightman, 36 London road.

Petty Sessions for the Daresbury division are held here the second tuesday in every month. For list of magistrates, see Daresbury.
